Docket No. 98N-1265

Food and Drug Administration APR 12 10:30

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I was out of the country when the FDA proposed this restriction. This is the only place I know of that determines which hormones I require & formulates the prescriptions & ships it to me. They have given me information & support that I have not found elsewhere. I have taken premarin and it gives me a terrific headache at any dosage. These Compounded Medications have improved my health, & made life enjoyable. Please reconsider your proposal!
